Dear Parent/ Guardian

Re: Winter Water Safety

Please see the attached notice, from Northants Fire & Rescue Service, regarding water safety over the winter period.

Yours faithfully,

Mr L Martin
**Designated Officer for Safeguarding &
Child Protection**

Mr S Strickland - Principal - BA (Hons), MA, NPQH

BE WINTER WATER AWARE

Water temperatures can be extremely cold in the UK and in winter can plummet to below zero.

Here are some top safety tips for keeping safe:

- Do not walk or play on ice
- Keep your pets away from ice and on leads at all times
- If your pet enters extremely cold water, do not attempt to rescue them yourself - you could put yourself in danger and they are more likely to rescue themselves
- If you go for a walk near cold water, try and go during daylight hours when visibility is good. If not, make sure the route is well lit
- Stay away from the water's edge

#safe4winter

If you find yourself in the water:

- Relax and float on your back to catch your breath. Try to get hold of something that will help you float
- Keep calm then call for help or swim for safety if you're able

If you see someone else in the water:

- Do not go into the water to rescue them. You could get into trouble yourself
- Call 999 and ask for the fire service and be as precise as you can with the location
- Tell the struggling person to float on their back in a star shape
- Throw something that may help them float – like a branch, an inflatable ball or even a water bottle
